THE NATIONAL GRID
TO GIVE A GRID REFERENCE CORRECT TO 100 METRES

EXAMPLE In Catterick Church
The Grid Letters on this sheet are NY 1700

EAST	NORTH
17	00
18	01
19	02

Full 100 Metre Reference NY 17000

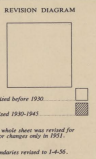

The above Full Reference is unique. For many purposes the first grid letter can be omitted, giving a reference, NY 17000, which means an interval of 100 Kilometres in the Easting. When the area concerned is sufficiently restricted, it will usually be the case with maps of scale of one inch to the mile and larger, that the grid letters are normally omitted.

At the bottom edge of this sheet, North is 1° 50' East of Grid North and at the bottom edge 1° 00' East of Grid North.

Magnetic North was about 90° West of Grid North in 1955, according to about 1" in five years.

Highlights are in feet above Mean Sea Level at Newlyn.

1 square inch on this map represents 1170 acres on the ground.
