

Equality Impact Assessment (EqIA) Proforma

An EqIA is a tool to assess whether a decision, policy, service or function pays 'due regard' to the Public Sector Equality Duty (PSED).

This Duty requires public bodies to:

- Eliminate discrimination
- Advance equality of opportunity
- Foster good relations

The Equality Duty covers the following **9 protected characteristics**:

Age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex, sexual orientation, marriage and civil partnership. In addition, this EqIA process includes; **care experience, rurality, socio-economic status** and **armed forces families.**

The EqIA process has two stages:

- **Screening EqIA:** This checks whether a decision, policy, service or function pays due regard to the Equality Duty; to provide any high-level advice or take immediate action; to determine if a full EqIA is required.

Appendix 5a

- **Full EqIA:** Sometimes called Equality Analysis, this looks at a decision, policy, service or function with supporting data, information, research and evidence from consultation/engagement. The EIA covers the nine protected characteristics as well as rurality, socio-economic status, care experience and armed forces personnel/ veterans. A full EqIA includes an action plan.

Where an EqIA relates to a Council Member Decision it should be included as an appendix to the committee report.
